iSi Environmental Services Named to Inc. Magazine's 'Inc. 5000'

August 29, 2008. Wichita-based environmental and safety consulting firm, iSi Environmental Services (iSi), has again been named to Inc. Magazine's Inc. 5000 list. iSi made the list in 2007.

The Inc. 5000 lists the 5000 fastest-growing, privately-held companies in the nation. iSi is listed as number 18 in the Environmental Services category and number 1,740 overall, the highest of all Wichita companies represented on the list. In 2007 iSi was listed as number 24 in the Environmental Services category.

Other Wichita companies listed in the Inc. 5000 include Capps Manufacturing, Fahnestock Plumbing, HVAC, & Electric, and iFurn.com.

iSi has won several growth and achievement awards since 2005 when it nearly tripled its employee count and revenue. In March of 2008 iSi acquired a local asbestos removal company, providing a boost in revenue and experience. iSi was named Wichita's 2006 Small Business of the Year by the Wichita Metro Chamber of Commerce, has been a Wichita Best in Business finalist for the past three years and also won a 2007 Kansas Department of Commerce Business Achievement Award.

iSi was recently certified by the Women's Business Enterprise National Council (WBENC) and provides EPA and OSHA compliance assistance, industrial cleaning and maintenance, environmental sampling, asbestos and lead, occupational worker exposure and training services to industry and government. All of the company's 125 employees are based in Wichita. iSi's work is primarily in the Midwest and Central Plains, but they do have contracts which take them throughout the United States. More information about iSi can be found at www.iSienvironmental.com.
